Independent Auditor's Report

The Board of Directors
North Carolina Joint Underwriting Association
Raleigh, North Carolina

Report on the Financial Statements

We have audited the accompanying statutory financial statements of North Carolina Joint Underwriting Association (Association), which comprise the statutory statements of admitted assets, liabilities and members' surplus of North Carolina Joint Underwriting Association as of December 31, 2018 and 2017, the related statutory statements of operations and changes in members' surplus and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the accounting practices prescribed or permitted by the North Carolina Department of Insurance; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1 to the financial statements, North Carolina Joint Underwriting Association prepared these financial statements using accounting practices prescribed or permitted by the North Carolina Department of Insurance, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

The effects on the financial statements of the variances between these statutory accounting practices and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the "Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles" paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of North Carolina Joint Underwriting Association as of December 31, 2018 and 2017, or the results of its operations or its cash flows thereof for the years then ended.

Opinion on Regulatory Basis of Accounting

In our opinion, the statutory financial statements referred to above present fairly, in all material respects, the admitted assets, liabilities and members' surplus of North Carolina Joint Underwriting Association as of December 31, 2018 and 2017, and the results of its operations and its cash flows for the years then ended, on the basis of accounting described in Note 1.

Report on the Supplemental Schedules

Our audit was conducted for the purpose of forming an opinion on the basic statutory financial statements taken as a whole. The accompanying summary investment schedule as of December 31, 2018, and supplemental investment risks and reinsurance interrogatories as of December 31, 2018, and for the year then ended (Supplemental Schedules) are presented for purposes of additional analysis and are not a required part of the basic statutory financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the statutory financial statements. The effects on the Supplemental Schedules of the variances between the statutory accounting practices and accounting principles generally accepted in the United States of America, although not reasonably determinable, is presumed to be material. As a consequence, the Supplemental Schedules do not present fairly, in conformity with accounting principles generally accepted in the United States of America, such information of the Association as of December 31, 2018, and for the year then ended. The Supplemental Schedules have been subjected to the auditing procedures applied in the audit of the statutory financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the statutory financial statements or to the statutory financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Supplemental Schedules are fairly stated in all material respects in relation to the statutory financial statements taken as a whole.

North Carolina Joint Underwriting Association

Notes to Statutory Financial Statements

Note 1. Nature of Organization and Significant Accounting Policies

North Carolina Joint Underwriting Association (the Association) was formed August 15, 1969, as an association of insurance companies (Member Insurers) mandated by North Carolina law. The Association is authorized to write fire, extended coverage and vandalism and malicious mischief coverage in the State of North Carolina. The North Carolina Joint Underwriting Association, also known as the FAIR (Fair Access to Insurance Requirements) Plan, is a tax exempt insurer of last resort created by law to provide adequate basic property insurance to property owners having insurable property in North Carolina. The Association is an association of insurance companies authorized to write basic property insurance coverage in North Carolina. The majority of the Association's policies are submitted by North Carolina licensed agents.

Because the Association only writes business in the State of North Carolina, it has a geographic concentration of policies written, which results in increased loss exposure for severe storms. Under North Carolina law, all insurers authorized to write basic property insurance in North Carolina on a direct basis, except town and county mutual insurance associations, certain assessable mutual companies and certain insurers who only write insurance on property exempted from taxation under the North Carolina General Statutes, are required to participate in the Association. Member Insurers share proportionately, based on premiums written, in the expenses, income and losses of the Association. Any assessment levied on Member Insurers by the Association (as ordered by the Association's Board of Directors) generally is due from the Member Insurers within 30 days of assessment.

The Association is administered by a Board of Directors and is subject to the regulation of the Commissioner of Insurance of the State of North Carolina. The Board of Directors consists of representatives of the Member Insurers, insurance agents appointed by the Commissioner and public members also appointed by the Commissioner. The general manager of the Association is appointed by the Board of Directors.

A summary of the Association's significant accounting policies is as follows:

Risk and uncertainties: Certain risks and uncertainties are inherent in the Association's day-to-day operations and to the process of preparing its statutory financial statements. The more significant of those risks and uncertainties are presented below and throughout the notes to the statutory financial statements.

Estimates: The preparation of the statutory financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the statutory financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Risk-based capital: The National Association of Insurance Commissioners (NAIC) has developed property-casualty risk-based capital (RBC) standards that relate an insurer's reported statutory surplus to the risks inherent in its overall operations. The RBC formula uses the statutory annual statement to calculate the minimum indicated capital level to protect the Association from the various risks that it faces. The NAIC model law calls for various levels of regulatory action based on the magnitude of an indicated RBC capital deficiency, if any. The Association continues to monitor its internal capital requirements and the NAIC's RBC requirements. Management believes that the Association's capital levels are sufficient to support the level of risk inherent in its operations.

North Carolina Joint Underwriting Association

Notes to Statutory Financial Statements

Note 1. Nature of Organization and Significant Accounting Policies (Continued)

Basis of presentation: At the direction of the Commissioner of Insurance of the State of North Carolina, the Association presents its financial statements on the basis of accounting practices prescribed or permitted by the North Carolina Department of Insurance. The State of North Carolina has adopted the SAP as the basis of its statutory accounting practices. There are no state prescribed or permitted practices that differ from NAIC's statutory accounting practices (SAP) that affect items in these financial statements.

Accounting practices and procedures of the NAIC as prescribed or permitted by the insurance department of the applicable state of an insurance company's domicile comprise a financial reporting framework other than accounting principles generally accepted in the United States of America (GAAP). The more significant differences between NAIC SAP and GAAP are as follows:

- Investments in bonds and other debt instruments are generally reported at amortized cost, unless required to be reported at fair value by NAIC regulations. Under GAAP, investments in debt securities are designated at purchase as held-to-maturity, trading securities or available-for-sale. Held-to-maturity debt securities are reported at amortized cost, less applicable valuation allowances, and other debt securities are reported at fair value under GAAP. For debt securities designated as trading, unrealized holding gains and losses are reported in operations and for those designated as available-for-sale, unrealized holding gains and losses are reported as a separate component of equity, under GAAP.
- For loan-backed and structured securities, if the Association determines that it intends to sell a security or no longer has the ability and intent to retain the investment for a period of time sufficient to recover the amortized cost, that security shall be written down to fair value. For statutory purposes, if the Association subsequently changes its assertion, and now believes it does not intend to sell the security and has the ability and intent to retain the investment for a period of time sufficient to recover the amortized cost, that security will continue to be carried at the lower of cost or market with any future decreases in fair value charged through operations until the security is disposed. For GAAP purposes, once the Association alters its assertion, the securities' amortized cost basis will not be decreased for future reductions in fair value unless an other-than-temporary impairment is determined to have occurred.
- For GAAP purposes, other-than-temporary impairment losses (related to non-loan-backed and structured securities) related to debt securities are bifurcated between credit and non-credit with credit losses reported in operations, and non-credit reported as a component of equity, whereas, for statutory purposes, the total other-than-temporary impairment loss is reported in operations.
- Commissions, premium taxes and other costs relating to the acquisition, issuance and renewal of policies are charged to operations as incurred. Under GAAP, such costs, to the extent realizable, are deferred and amortized over the term of the policy.
- Certain assets, described as non-admitted, are excluded by direct charges to surplus. In accordance with GAAP, such assets are recorded on the balance sheet, net of valuation allowances.

North Carolina Joint Underwriting Association

Notes to Statutory Financial Statements

Note 1. Nature of Organization and Significant Accounting Policies (Continued)

- Comprehensive income is not determined for SAP; whereas, for GAAP, such income is determined.
- Assets and liabilities related to insurance and reinsurance activities are netted in financial statements prepared on the basis of SAP. Under GAAP, those assets and liabilities would be reported at their gross amounts.
- Under SAP, cash, cash equivalents and short-term investments represent cash balances and investments with an initial maturity of one year or less. Under GAAP, the corresponding caption of cash and cash equivalents include cash balances and investments with an initial maturity of three months or less. Further, under GAAP, the statement of cash flows requires a reconciliation of net income to net cash from operations.
- Under GAAP, certain additional information is required to be disclosed related to the liability for unpaid claims and claims adjustment expenses.

Cash, cash equivalents and short-term investments: Cash constitutes a medium of exchange that a bank will accept for deposit and allow an immediate credit to the depositor's account. Cash equivalents are also classified as cash for financial statement purposes, although they do not fall within the above description of cash. Examples include savings accounts and certificates of deposit in banks and other similar institutions with maturity dates of three months or less from the date of acquisition. At times, cash deposits with a financial institution may exceed federally insured limits. The Association has not experienced any credit losses related to such deposits and its management is not aware of any events or circumstances which would raise doubt about the ongoing solvency of the institution.

Investments with remaining maturities of one year or less at the time of acquisition (excluding those investments defined as cash equivalents above) are considered short-term investments.

Investment risks: The Association is exposed to risks that issuers of securities owned by the Association will default or that interest rates will change and cause a decrease in the value of the Association's investments. With Federal mortgage-backed securities, the Association is exposed to prepayment risk. As interest rates decline, the rate at which these securities pay down principal will generally increase.

Management mitigates these risks by conservatively investing in high-grade securities and by matching estimated maturities of its investments with the anticipated payouts of its liabilities.

Investments: Bonds are reported at amortized cost in the accompanying statutory financial statements. Amortization is computed using the scientific (interest) method. Prepayment assumptions for asset-backed securities were obtained from broker dealer survey values or internal estimates. Realized gains and losses on sales of investments are recognized in the statutory statements of operations on a specific-identification basis. Declines in fair value that are considered other-than-temporary are charged to realized losses, and the cost of the investment is adjusted to estimated fair value in the period when the determination is made. In determining whether these losses are expected to be temporary, the Association considers severity of impairment, duration of impairment, forecasted market price recovery and the intent and ability of the Association to hold the investment until the market price has recovered.

North Carolina Joint Underwriting Association

Notes to Statutory Financial Statements

Note 1. Nature of Organization and Significant Accounting Policies (Continued)

For loan-backed or structured securities, factors considered by management in determining whether an other-than-temporary impairment exists include the Association's stated intent to not sell, the Association's ability to hold such investments until the fair value recovers, and the discounted cash flows of the security based on the yield at the date of acquisition. If the Association intends to sell or if the Association does not have the ability and intent to hold the security for a period of time sufficient to recover its amortized cost basis, an other-than-temporary impairment exists, and the security is written down to fair value with the amount of the write-down recorded as a realized loss. If the Association does not intend to sell the security and has the ability and intent to hold the security for a period of time sufficient to recover the amortized cost basis, the Association calculates the cash flows expected to be collected. In this calculation, the Association compares the present value of cash flows expected to be collected, discounted at the security's effective interest rate at date of purchase, to the amortized cost basis. If the present value of cash flows is less than the amortized cost basis, a realized loss is recorded for the difference. The present value of cash flows then becomes the new cost basis.

Accrued investment income: The Association non-admits investment income due and accrued if amounts are over 90 days past due. As of December 31, 2018 and 2017, the Association had no income due or accrued over 90 days past due.

Premiums in course of collection: The Association records premiums in course of collection at total unpaid balance, which approximates estimated fair value, net of any non-admitted receivables. The Association determines past due status of individual accounts receivable based on the effective date of the policy and generally does not charge interest on past due amounts. Premiums that management believes to be ultimately not collectible are written off upon such determination. Any premiums considered to be past due 90 days or more are non-admitted.

Data processing equipment: Data processing equipment is carried at cost less accumulated depreciation. The Association provides for depreciation on these assets using the straight-line method over three to five years. Depreciation expense was \$701,043 and \$97,057 for the years ended December 31, 2018 and 2017, respectively. Maintenance and repairs are charged to expense as incurred.

Non-admitted assets: Certain assets designated as non-admitted assets have been charged directly to members' surplus. Amounts related to non-admitted assets for the years ended December 31, 2018 and 2017, are as follows:

	2018	2017
Furniture and equipment, less accumulated depreciation of \$1,223,506 and \$1,110,644, respectively	\$ 126,272	\$ 137,353
Prepaid expenses	66,031	247,325
Prepaid assets	588,334	2,280,562
Accounts receivable, commission	2,921	1,555
	<hr/> <u>\$ 783,558</u>	<hr/> <u>\$ 2,666,795</u>

Depreciation on non-admitted assets (furniture and equipment) is computed by applying the straight-line method over the estimated useful lives of the related assets. Estimated lives are three to five years for furniture and equipment. This depreciation expense of \$112,862 and \$133,446 is reflected in the statutory statements of operations and changes in members' surplus for the years ended December 31, 2018 and 2017, respectively.

North Carolina Joint Underwriting Association

Notes to Statutory Financial Statements

Note 1. Nature of Organization and Significant Accounting Policies (Continued)

Reserves for losses and loss adjustment expenses: The Association estimates loss and loss adjustment expenses after consultation with the Association's independent actuary. These amounts are recorded net of estimated recoveries for reinsurance ceded. Actual results could differ from these estimates.

Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and, while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liability are continually reviewed, and any adjustments are reflected in the period determined.

Establishing liabilities for claims is subject to significant uncertainties that make reserve estimation difficult. In establishing liabilities for claims, the Association considers all pertinent information as it becomes available, and establishes incurred but not reported reserves where appropriate. Although the reserves are deemed adequate to cover all probable claims, there is a possibility that adverse development from prior accident years could occur in the future.

Estimates for catastrophic events are inherently more uncertain than those for non-catastrophic losses due to the unique circumstances involving a catastrophe. Due to the low frequency of historical catastrophic events, standard actuarial loss development methods are difficult to apply and may result in a wider range of estimates of ultimate catastrophic losses. Therefore, material changes to estimates related to these events are reasonably possible in the near term after these events occur, and are reflected in operations as more information becomes available.

Reinsurance: Reinsurance contracts do not relieve the Association from its obligations to policy holders. Failure of reinsurers to honor their obligations could result in losses to the Association; consequently, allowances are established for amounts deemed to be uncollectible, when necessary. The Association evaluates the financial condition of its reinsurers to minimize exposure to significant losses from reinsurer insolvencies.

Reinsurance premiums and liabilities related to reinsurance ceded are accounted for on a basis consistent with that used in accounting for the original policies issued by the Association and the terms of the reinsurance contracts. Premiums and losses on reinsurance ceded are reported as reductions of premiums earned and losses and loss adjustment expenses incurred, respectively, in the statutory statement of operations and changes in members' surplus.

Member participation: Each Member Insurer's participation in the Association's operations is in proportion to that member's North Carolina insurance writings for the affected lines of business in the preceding calendar year. Participation percentages vary from year to year. Assessments of Member Insurers related to each fiscal year are based on their participation. Since the Association has the authority to assess its members to cover members' deficits, members can be assessed annually to meet the liquidity requirements of the Association. Special assessments are also permitted for large unanticipated losses.

North Carolina Joint Underwriting Association

Notes to Statutory Financial Statements

Note 1. Nature of Organization and Significant Accounting Policies (Continued)

Premiums and related commissions: Premiums are earned over the periods covered by the policies on a daily pro-rata basis. Unearned premium reserves are established to cover the unexpired portion of premiums written. Expenses incurred related to the acquisition of new insurance business, including such acquisition costs as commissions, premium taxes and other underwriting expenses, are charged to expense when incurred. When the Association receives premium payments from policyholders prior to the effective date of the related policy, the Association records an advance premium liability. On the policy effective date, the Association reduces the advance premium liability and records written premium. The Association does not utilize anticipated investment income as a factor in determining if there is a premium deficiency. The Association does not utilize anticipated investment income as a factor in determining if there is a premium deficiency. No premium deficiency reserve is recorded as of December 31, 2018 and 2017. The date of the latest calculation of premium deficiency reserves is December 31, 2018.

Income taxes: In 1992, the Association received correspondence from the Internal Revenue Service (IRS) indicating that it is tax-exempt under Section 501(c)(6) of the Internal Revenue Code. The Association's tax exempt status was examined by the IRS in 2011, and the Association's exemption was reaffirmed.

Note 2. Investments

Amortized cost (admitted amount), aggregate fair value and gross unrealized gains and losses pertaining to the portfolio of bonds and other debt instruments as of December 31, 2018 and 2017, are as follows:

	2018			
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized (Losses)	Fair Value
U.S. Treasury obligations	\$ 5,717,835	\$ -	\$ (171,400)	\$ 5,546,435

Corporate debt	23,193,067	21,458	(183,387)	23,031,138
	\$ 58,592,239	\$ 117,579	\$ (559,521)	\$ 58,150,297

Amortized cost and aggregate fair value of bonds and other debt instruments held as of December 31, 2018 and 2017, according to final contractual maturity dates, are as indicated below. Actual future maturities will differ from the maturities shown because certain issuers have the right to call or prepay obligations.

	2018		2017	
	Amortized Cost	Fair Value	Amortized Cost	Fair Value
Amounts due in less than one year	\$ 1,319,482	\$ 1,304,920	\$ 5,640,831	\$ 5,647,978
Amounts due after one year through five years	27,156,926	26,732,127	40,511,663	40,362,470
Amounts due after five years through ten years	4,427,781	4,253,883	3,984,498	3,870,819
Amounts due after ten years	8,192,823	7,965,597	8,455,247	8,269,030
	\$ 41,097,012	\$ 40,256,527	\$ 58,592,239	\$ 58,150,297

North Carolina Joint Underwriting Association

Notes to Statutory Financial Statements

Note 2. Investments (Continued)

The following tables show unrealized gross losses and fair value, for the Association's investments, aggregated by individual category and length of time that individual securities have been in a continuous unrealized loss position at December 31, 2018 and 2017:

	2018							
	12 Months or Less		More Than 12 Months		Total			
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses		
U.S. Treasury obligations	\$ 1,733,798	\$ 12,751	\$ 3,812,637	\$ 158,649	\$ 5,546,435	\$ 171,400		
Federal agency obligations	240,828	9,172	1,178,237	39,705	1,419,065	48,877

	\$ 16,878,313	\$ 185,674	\$ 24,132,428	\$ 373,847	\$ 41,010,741	\$ 559,521		

The Association evaluates impairment at each reporting period for each security (other than loan-backed or structured securities) where the fair value of the investment is less than its amortized cost. It is expected that the securities would not be settled at a price less than the amortized cost of the investment, as the Association has the ability and intent to hold the investment until recovery. The Association evaluated the credit ratings of these holdings, noting neither a significant deterioration since purchase nor other factors which may indicate an other-than-temporary impairment, such as the length of time and extent to which fair value has been less than cost, the financial condition and near-term prospects of the issuer as well as specific events or circumstances that may influence the operations of the issuer, and the Association's intent and ability to hold the investment for a sufficient time in order to enable recovery of its cost.

The Association evaluated each loan-backed and structured security for impairment where the fair value of the investment was less than its amortized cost. For those securities that the Association intends to sell or does not have the ability to hold until recovery, an impairment is recorded equal to the difference of amortized cost and fair value. For all other loan-backed and structured securities, the Association developed assumptions around prepayment speeds, expected default rates and the value of the underlying collateral. These assumptions were used to develop expected cash flows which were discounted at the effective yield at the date of acquisition (or most recent impairment). These modeled cash flows were compared against the current amortized cost basis. If the expected discounted cash flows were less than the amortized cost basis, the security was written down to the discounted cash flow amount, with the difference recorded as a realized loss.

North Carolina Joint Underwriting Association

Notes to Statutory Financial Statements

Note 2. Investments (Continued)

Proceeds from sales of investments in bonds and other debt instruments totaled \$28,401,748 and \$11,094,522 in 2018 and 2017, respectively. Net realized losses of \$166,595 and net realized losses of \$170,042 are reflected in the statutory statements of operations and changes in members' surplus for the years ended December 31, 2018 and 2017, respectively.

In accordance with SAP, common stock was reclassified to cash equivalents on a prospective basis beginning in 2017, and are reported as a disposition of common stock in the 2017 statutory statement of cash flows.

For the years ended December 31, 2018 and 2017, no securities were determined to be other than temporarily impaired.

Investment income, net of investment expenses, for the years ended December 31, 2018 and 2017, is comprised of primarily interest on bonds and other debt instruments, cash equivalents and short-term investments.

Note 3. Reserve for Losses and Loss Adjustment Expenses

Activity in the reserve for losses and loss adjustment expenses for the years ended December 31, 2018 and 2017, is summarized as follows:

	2018	2017
Balance at January 1	\$ 7,362,735	\$ 9,799,110
Incurred related to:		
Current year	177,677,630	40,339,704
Prior years	118,432	1,034,801
Total incurred	<u>177,796,062</u>	<u>41,374,505</u>
Paid related to:		
Current year	(170,261,943)	(34,650,622)
Prior years	(6,312,714)	(9,160,258)
Total paid	<u>(176,574,657)</u>	<u>(43,810,880)</u>
Balance at December 31	<u>\$ 8,584,140</u>	<u>\$ 7,362,735</u>

As a result of changes in estimates related to insured events of prior years, the provision for losses and loss adjustment expenses was adjusted as indicated in the table above. The change in prior year incurred losses and loss adjustment reserves of \$118,432 and \$1,034,081 in 2018 and 2017 respectively, resulted from claim settlements being more unfavorable than expected. Current year incurred and paid losses were directly impacted by Hurricane Florence (September 2018) and Hurricane Michael (October 2018), which brought catastrophic rain and strong wind and had a major impact in the state of North Carolina. For the year ended December 31, 2018, the Association's consulting actuary also considered Hurricane Florence and Michael monthly development, and Florence projected frequency-severity, in addition to the methods typically applied in determining the reasonableness of the Association's unpaid loss and loss adjustment expenses.

North Carolina Joint Underwriting Association

Notes to Statutory Financial Statements

Note 3. Reserve for Losses and Loss Adjustment Expenses (Continued)

The components of unpaid losses and loss adjustment expenses as of December 31, 2018 and 2017, are as follows:

	2018	2017
Unpaid losses:		
Case basis	\$ 1,396,581	\$ 2,143,121
Incurred but not reported	3,953,598	3,419,576
	<u>5,350,179</u>	<u>5,562,697</u>
Unpaid loss adjustment expenses:		
Case basis	949,703	294,484
Incurred but not reported	2,284,258	1,505,554
	<u>3,233,961</u>	<u>1,800,038</u>
	<u><u>\$ 8,584,140</u></u>	<u><u>\$ 7,362,735</u></u>

Note 4. Related-Party Transactions

A related organization, North Carolina Insurance Underwriting Association (NCIUA), shares the same headquartered facility and is operated by the same personnel as the Association. This arrangement periodically results in receivables or payables between the Association and NCIUA. Most expenses are allocated between the two parties with 43% allocated to the Association and the remainder to NCIUA for the year ended December 31, 2018, and 41% allocated to the Association and remainder to NCIUA for the year ended December 31, 2017, except for certain expenses (furniture, computer hardware, board fees, programming, etc.) which are shared equally. If this cost-sharing arrangement was not in place, the actual expense amounts for the Association would vary from the amounts reported in the statutory financial statements. At December 31, 2018 and 2017, the Association had a net receivable from NCIUA of \$5,555,934 and \$1,815,417, respectively.

Note 5. Debt

The Association executed a credit agreement on August 3, 2018, that is effective through August 2, 2019. Under the credit agreement, the Association has access to a limited purpose revolving line of credit loan in the amount up to \$100,000,000. The purpose of this executed agreement is to provide the Association with funds to cover immediate cash flow needs resulting from a catastrophic event affecting the state of North Carolina.

Should a catastrophic event occur in the state of North Carolina, the Association is statutorily granted the authority to issue a Special Assessment to its Members. The Board of Directors approved Special Assessment would serve as collateral for any draws on the revolving line of credit loan up to the maximum of the approved Special Assessment amount or \$100,000,000. For any outstanding loan amounts related to the revolving line of credit, interest will accrue at a variable rate of one-month London Interbank Offered Rate (LIBOR) + 1.00%. Interest shall be computed and charged for the actual number of days elapsed on the basis of a year consisting of 360 days.

The Association drew on the line of credit in the amount of \$64,272,000 in October 2018, and the line of credit was fully repaid within 17 days. Interest related to the line of credit in the amount of \$92,650 was fully paid as of November 1, 2018. As of December 31, 2018, the Association did not have any outstanding balances in relation to the line of credit.

North Carolina Joint Underwriting Association

Notes to Statutory Financial Statements

Note 6. Lease Commitments

The Association and NCIUA jointly rent home office facilities under an operating lease agreement, which expires in calendar year 2025. Although the lease is in the name of the Association, the Association was allocated 43% and 41% of the costs under this lease agreement during the years ended December 31, 2018 and 2017, respectively. The Association's allocated share of rent expense was \$270,289 and \$247,525 for the years ended December 31, 2018 and 2017, respectively. The Association also leases certain equipment jointly with NCIUA.

During February 2019, the Association and NCIUA were released from this office lease and moved into a new building. A new lease agreement was entered into related to the new building. This lease agreement expires in calendar year 2029.

The Association's share of the future lease payments, based on current cost sharing provisions with NCIUA, under the terms of the operating lease agreements at December 31, 2018, is as follows:

	<u>Amount</u>
Calendar years ending December 31:	
2019	\$ 354,432
2020	498,439
2021	508,820
2022	523,013
2023	537,603
Thereafter	<u>2,676,033</u>
	<u><u>\$ 5,098,340</u></u>

The Association and NCIUA are also required to pay a proportionate share of operating expense increases during the lease term for the building.

Note 7. Litigation

In the ordinary course of business, the Association from time to time is involved in litigation. Management does not believe the ultimate disposition of any current litigation in which the Association is involved will have a material effect on the Association's financial condition.

Note 8. Assessments of Member Insurers

In September 2018, the Association assessed \$108,000,000 to Member Insurers due to the impact of Hurricane Florence. As of December 31, 2018, the Association had collected \$107,962,200 of assessments from its Member Insurers.

North Carolina Joint Underwriting Association

Notes to Statutory Financial Statements

Note 9. Employee Benefit Plans

Pension benefits: The Association and NCIUA participate in a multiple-employer pension plan called the Insurance Organizations' Pension Trust (the Plan). Employees automatically participate in the Plan on the first day of the month on or after the date they complete a year of eligible service and are at least age 21. A year of eligible service for determining plan participation is the 12-month period beginning on their date of hire and each anniversary of that date during which the employee completes at least 1,000 hours of service. The Association's funding policy is to make the minimum annual contributions required by applicable regulations, which are based on recommendations from the Plan's actuary. For the years ended December 31, 2018 and 2017, the Association is allocated 43% and 41%, respectively, of the costs associated with their participation in the plan under the current cost-sharing arrangement with NCIUA.

Postretirement benefits: In addition to pension benefits, the Association and NCIUA provide certain health care and life insurance (postretirement) benefits for retired employees. The costs and accrued liabilities associated with these benefits are allocated between the two entities in the same proportions as for the pension plan. Based on the number of years of service and retirement age, retirees are eligible to continue medical coverage on a contributory basis or noncontributory basis. Medical benefit eligibility requirements include that employees: (1) meet normal or early retirement requirements, as defined by the pension plan; (2) must have been a full time employee 5 years or more immediately preceding retirement; and (3) must meet group coverage eligibility immediately preceding retirement. Spouses of retirees may also be eligible to participate.

For measurement purposes, the discount rate used in 2018 in determining the accumulated postretirement benefit obligation was 4.5%. The health care cost-trend rate was 6%, decreasing to an ultimate rate of 4.50% in 2023. The discount rate used in 2017 in determining the accumulated postretirement benefit obligation was 3.75%. The health care cost-trend rate was 6.5%, decreasing to an ultimate rate of 4.50% in 2023.

The Medicare Prescription Drug Improvement and Modernization Act of 2003 was enacted during 2003 (the Act). The Act creates Medicare Part D, which could have some effect on the Association's obligations under the postretirement health plan. Measures of the accumulated postretirement benefit obligation and the net periodic benefit cost recorded in these statutory financial statements do not reflect any changes brought about by the Act because the employer is unable to conclude whether the benefits provided by the plan are actuarially equivalent to Medicare Part D under the Act.

North Carolina Joint Underwriting Association

Notes to Statutory Financial Statements

Note 9. Employee Benefit Plans (Continued)

The reconciliations of the benefit obligations on a measurement date as of December 31, 2018 and 2017, for pension and postretirement are as follows:

	Underfunded	
	2018	2017
Pension benefits:		
Benefit obligation at beginning of year	\$ 4,422,815	\$ 3,496,402
Service cost	358,390	269,927
Interest cost	206,039	180,382
Actuarial (gain) loss	(411,516)	595,887
Benefits paid	(725,981)	(119,783)
Benefit obligation at end of year	<u>\$ 3,849,747</u>	<u>\$ 4,422,815</u>
Accumulated benefit obligation	<u>\$ 3,318,026</u>	<u>\$ 4,233,230</u>
Postretirement benefits:		
Benefit obligation at beginning of year	\$ 3,058,434	\$ 2,354,626
Service cost	281,992	217,101
Interest cost	143,406	123,020
Contributions by plan participants	17,102	20,836
Actuarial (gain) loss	(938,753)	420,021
Benefits paid	(84,323)	(77,170)
Benefit obligation at end of year	<u>\$ 2,477,858</u>	<u>\$ 3,058,434</u>

The changes in plan assets at December 31, 2018 and 2017, are as follows:

	Pension Benefits		Postretirement Benefits	
	2018	2017	2018	2017
Change in plan assets:				
Fair value of plan assets, beginning of year	\$ 2,685,840	\$ 2,115,968	\$ -	\$ -
Actual return on plan assets	(211,741)	451,306	-	-
Contributions by reporting entity	282,289	238,349	67,220	56,334
Contributions by participants	-	-	17,102	20,836
Benefits paid	(725,981)	(119,783)	(84,322)	(77,170)
Fair value of plan assets, end of year	<u>\$ 2,030,407</u>	<u>\$ 2,685,840</u>	<u>\$ -</u>	<u>\$ -</u>

North Carolina Joint Underwriting Association

Notes to Statutory Financial Statements

Note 9. Employee Benefit Plans (Continued)

The reconciliation of the funded status to the net amount recognized at December 31, 2018 and 2017, is as follows:

	Pension Benefits		Postretirement Benefits	
	2018	2017	2018	2017
Funded status:				
Components:				
Accrued benefit costs	\$ (820,117)	\$ (474,048)	\$ (3,436,638)	\$ (2,811,546)
Liability for benefits	(999,223)	(1,262,926)	958,780	(246,888)
Assets and liabilities recognized:				
Liabilities recognized	(1,819,340)	(1,736,974)	(2,477,858)	(3,058,434)

The liability for the underfunded status for the pension and postretirement benefits is included pension and postretirement liability on the statutory statements of admitted assets, liabilities and members' surplus as of December 31, 2018 and 2017, respectively.

The components of net periodic benefit costs at December 31, 2018 and 2017, are as follows:

	Pension Benefits		Postretirement Benefits	
	2018	2017	2018	2017
Components of net periodic benefit costs:				
Service cost	\$ 358,390	\$ 269,927	\$ 281,992	\$ 217,101
Interest cost	206,039	180,382	143,406	123,020
Expected return on plan assets	(223,184)	(173,120)	-	-
Amount of recognized gains and losses	105,351	83,257	7,659	-
Amount of prior service cost	(31)	(30)	122,106	116,427
Net periodic benefit cost	<u>\$ 446,565</u>	<u>\$ 360,416</u>	<u>\$ 555,163</u>	<u>\$ 456,548</u>

An additional loss of \$158,670 was recognized during 2018 due to a settlement.

The amounts in unassigned funds (surplus) related to actuarial (gains) and losses total \$1,290,285 and (\$505,742) at December 31, 2018 for pension and postretirement benefits, respectively. The amount in unassigned funds (surplus) related to prior service costs total (\$31) and \$64,007 at December 31, 2018 for pension and postretirement benefits, respectively.

North Carolina Joint Underwriting Association

Notes to Statutory Financial Statements

Note 9. Employee Benefit Plans (Continued)

The amounts in unassigned funds (surplus) related to actuarial (gains) and losses total \$1,459,692 and \$420,173 at December 31, 2017 for pension and postretirement benefits, respectively. The amount in unassigned funds (surplus) related to prior service costs total (\$59) and \$177,457 at December 31, 2017 for pension and postretirement benefits, respectively.

The amounts in unassigned funds (surplus) arising during the years ended December 31, 2018 and 2017, are as follows:

	Pension Benefits		Postretirement Benefits	
	2018	2017	2018	2017
Net (gain) loss arising during the period	\$ 23,409	\$ 234,444	\$ (938,952)	\$ 420,021

The amounts of unassigned funds (surplus) expected to be recognized in the fiscal year as components of net periodic benefit cost for 2019, is as follows:

	Pension Benefits		Postretirement Benefits	
Net prior service cost or (credit)	\$ (31)		\$ 64,007	
Net recognized (gains) losses		81,645		(17,331)

The following table presents the assumptions used in determining present value of the benefit obligation for the pension plan and the accumulated postretirement benefit obligation as of December 31, 2018 and 2017:

	Pension Benefits		Postretirement Benefits	
	2018	2017	2018	2017
Weighted-average assumptions used in computing ending obligations:				
Discount rate	4.50%	3.75%	4.50%	3.75%
Rate of compensation increase	3.50%	3.50%	N/A	N/A
Weighted-average assumptions used in computing net cost:				
Discount rate	3.75%	4.25%	3.75%	4.25%
Rate of compensation increase	3.50%	3.50%	N/A	N/A
Expected return on plan assets	6.75%	6.75%	N/A	N/A
Assumed health care cost trends rate:				
Health care cost trend rate assumed for next year	N/A	N/A	6.00%	6.50%
Rate to which the cost trend rate is assumed to decline (the ultimate trend rate)	N/A	N/A	4.50%	4.50%
Year that the rate reached the ultimate trend rate	N/A	N/A	2023	2023

North Carolina Joint Underwriting Association

Notes to Statutory Financial Statements

Note 9. Employee Benefit Plans (Continued)

Assumed health care cost trend rates could have a significant effect on the amounts reported for the postretirement benefit plan. The following table summarizes the effects of a 1% increase and a 1% decrease in assumed health care cost trend rates at December 31:

	1% Increase		1% Decrease	
	2018	2017	2018	2017
Effect on total service and interest cost components of net periodic postretirement benefit cost	\$ 92,369	\$ 71,671	\$ (71,587)	\$ (55,857)
Effect on the health care component of the accumulated postretirement benefit obligation	563,971	666,466	(445,414)	(524,554)

Increase or decrease in the projected benefit obligation (PBO) resulting from a plan amendment is amortized on a straight-line basis over the average expected remaining service of active participants expected to benefit under the Plan. Reduction in PBO first reduces any unrecognized prior service cost; any remaining amount is amortized on a straight-line basis described above. Net loss (gain) in excess of 10% of the greater of PBO or the fair value of assets is amortized on a straight-line basis over the average expected remaining service of active participants expected to benefit under the Plan.

Increase in the accumulated postretirement benefit obligation (APBO) resulting from a plan amendment is amortized on a straight-line basis over the average expected remaining service of active participants expected to benefit under the Plan. Amortization of net prior service cost (credit) resulting from a plan change is included as a component of Net Periodic Postretirement Benefit Cost (Income) in the year first recognized and every year thereafter until such time as it is fully amortized. The annual amortization payment is determined in the first year as the increase in APBO due to the plan change divided by the average remaining service period to full eligibility for participating employees expected to receive benefits under the Plan. Reductions in APBO first reduce any unrecognized prior service cost; any remaining amount is amortized on a straight-line basis as described above.

Non-vested APBO was recognized under SSAP 92 effective January 1, 2013, and is amortized over the period to full vesting for the non-vested group.

Amortization of the net gain or loss resulting from experience different from that assumed and from changes in assumptions is included as a component of Net Periodic Postretirement Benefit Cost (Income) for a year.

Net loss (gain) in excess of 10% of the APBO is amortized on a straight-line basis over the average expected remaining service of active participants expected to benefit under the Plan.

Plan assets: The members of the pension plan participate in a multiple-employer pension trust. Plan assets are held in a single trust for all employers who participate in the Plan. Each year, assets are allocated to the Association based on its historical contributions, benefit disbursements and share of investment return.

North Carolina Joint Underwriting Association

Notes to Statutory Financial Statements

Note 9. Employee Benefit Plans (Continued)

The asset allocation for the Plan at the end of the Association's fiscal year, and the on-going target allocation, by asset category, follows:

Asset category:	Target	As of December 31, 2018		Target	As of December 31, 2017	
Equity securities	50.0%		47.4%	50.0%		49.5%
Debt securities	50.0		51.8	50.0		48.9
Cash	-		0.8	-		1.6
Total	100.0%		100.0%	100.0%		100.0%

The Plan's investment policy is set by the Trustees of the Insurance Organizations' Pension Trust (IOP). The expected rate of return on plan assets was determined based on the average rate of earnings expected to be earned on the current and target asset categories.

The following table summarizes the plan assets' fair value measurements by level at December 31, 2018 and 2017:

	2018							
	Quoted Prices in Active Markets for Identical Assets	Significant		Significant			Net Asset Value (NAV)	Total Fair Value
		Other Observable	Inputs Level 2	Inputs Level 3	Unobservable			
Equity securities (a)	\$ -	\$ -	\$ -	\$ -	\$ 962,413	\$ 962,413		
Debt securities (a)	-	-	-	-	1,051,751	1,051,751

	\$ -	\$ -	\$ -	\$ -	\$ 2,685,840	\$ 2,685,840		

(a) Equity and debt securities consist of common collective funds which are valued at the net asset value (NAV), as a practical expedient to measure fair value, based on the fair value of the underlying investments.

North Carolina Joint Underwriting Association

Notes to Statutory Financial Statements

Note 9. Employee Benefit Plans (Continued)

The collective investment funds have no unfunded commitments. The Plan Administrator may withdraw money from the funds daily; however, they may be required to give a one year notice prior to redemption, if the collective fund is invested primarily in assets that are not readily marketable. Short-term investment funds have no unfunded commitments. The Plan Administrator may withdraw money from the funds daily; however, they may be required to give a 15 day notice prior to redemption. These funds are invested in a variety of debt and equity instruments, with a goal of providing resources to be available as payouts are required.

(b) Cash consists of money market funds which are valued at NAV of shares held by the Plan at year end.

To assess the appropriate classification of instruments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of instruments from one fair value level to another. In such instances, the transfer is reported as if it occurred at the beginning of the reporting period.

The Association evaluates the significance of transfers between levels based upon the nature of the instrument and size of the transfer. For the years ended December 31, 2018 and 2017, there were no significant transfers in or out of Levels 1, 2 or 3.

Cash flows: The Association expects to contribute approximately \$322,000 to its pension plan and approximately \$64,000 to its other postretirement benefit plan in 2019.

The following benefit payments, which reflect expected future service, as appropriate, are expected to be paid in fiscal years:

Years:	Pension Plan	Postretirement Plan
2019	\$ 104,663	\$ 64,475
2020	115,934	86,408
2021	131,156	106,152
2022	151,864	126,252
2023	172,065	147,017
2024-2028	1,212,346	914,089

Defined contribution plan: The Association also offers an Employee Savings Plan to employees working at least 1,000 hours in a year. This plan is offered through a single employer arrangement with the Association matching 100% of employee contributions up to 6% of the employees' earnings. The employee is 100% vested in his or her contributions and earnings. The employee is 100% vested in the Association's contributions after completing three years of service. The Association's expense for the years ended December 31, 2018 and 2017, was \$181,018 and \$93,795, respectively.

North Carolina Joint Underwriting Association

Notes to Statutory Financial Statements

Note 10. Fair Values of Financial Instruments

Due to their short-term maturity or settlement, the fair values of cash, cash equivalents and short-term investments, balances due on account from insureds, reinsurers and others, payables, and remittances and items not allocated, approximate their carrying amounts as reflected in the statutory statements of admitted assets, liabilities and members' surplus.

The fair value of bonds is estimated based on quoted market prices if available, and if not, fair values are estimated using present value or other valuation techniques. These techniques are significantly affected by our assumptions, including discount rates and estimates of future cash flows. Potential taxes and other transaction costs have not been considered in estimating fair values. The fair value and amortized cost of bonds and other debt instruments were approximately \$40,257,000 and \$41,097,000, respectively, at December 31, 2018, and approximately \$58,150,000 and \$58,592,000, respectively, at December 31, 2017.

The Association has not historically maintained financial instruments for trading purposes.

Fair value is based on an exit price, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Association employs a hierarchical disclosure framework which prioritizes and ranks the level of market price observability used in measuring financial instruments at fair value. Market price observability is affected by a number of factors, including the type of instrument and the characteristics specific to the instrument. Financial instruments with readily available active quoted prices or for which fair value can be measured from actively quoted prices generally will have a higher degree of market price observability and a lesser degree of judgment in measuring fair value.

The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of fair value hierarchy are as follows:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities that the Association has the ability to access at the measurement date

Level 2: Valuations derived from inputs other than quoted market prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in markets that are not active
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3: Valuations are derived from techniques that require significant unobservable inputs. The unobservable inputs reflect the Association's own assumptions about the assumptions that market participants would use in pricing the asset or liability.

North Carolina Joint Underwriting Association

Notes to Statutory Financial Statements

Note 10. Fair Values of Financial Instruments (Continued)

The following tables summarize the aggregate fair value and admitted values for long-term financial instruments held by the Association as of December 31, 2018 and 2017:

Admitted Assets	December 31, 2018				
	Level 1		Level 2		Level 3
					Total
Bonds and other debt instruments					
\$ 41,097,012	\$ -	\$ 40,256,527	\$ -	\$ 40,256,527	
\$ 41,097,012	\$ -	\$ 40,256,527	\$ -	\$ 40,256,527	
 December 31, 2017					
Admitted Assets					
	Level 1		Level 2		Level 3
					Total
Bonds and other debt instruments					
\$ 58,592,239	\$ -	\$ 58,150,297	\$ -	\$ 58,150,297	
\$ 58,592,239	\$ -	\$ 58,150,297	\$ -	\$ 58,150,297	

Note 11. Reinsurance Agreements

The claims paying capacity of the Association is composed of premiums received from policies issued, surplus, investment income on surplus, any payments received under the Association's risk financing program, any assessments levied on the Association's Member Insurers and other statutorily-prescribed mechanisms for financing a deficit event affecting the Association. The Association's risk financing program, effective May 1, 2018, for potential claims obligations that arise from May 1, 2018 to May 1, 2019, provides protection from third-party reinsurers from \$130 million to \$281 million.

Reimbursed losses and loss adjustment expenses related to the above agreements for 2018 and 2017, follows:

	2018	2017
Reinsurance recoverable on paid losses and loss adjustment expense as of December 31	\$ 12,326,476	\$ -
Reinsurance recoverable on unpaid losses and loss adjustment expenses as of December 31	21,074,129	-
Reinsurance recoveries on incurred claims during the year	83,409,976	-

North Carolina Joint Underwriting Association

Notes to Statutory Financial Statements

Note 11. Reinsurance Agreements (Continued)

For the excess of loss coverages described above, the Association is charged a provisional premium, which may be adjusted in accordance with a formula included in the reinsurance agreement for each excess layer if the limits of insurance in force (total insured value) increases by an average of greater than 10% or decreases by an average of greater than 5%. The effect of reinsurance on the Association's premiums written and earned during the years ended December 31, 2018 and 2017, is as follows:

	2018		2017	
	Written	Earned	Written	Earned
Direct	\$ 94,116,763	\$ 90,338,571	\$ 86,736,495	\$ 82,184,680
Ceded	(8,261,248)	(8,261,248)	(7,661,667)	(7,661,667)
Net premiums	<u>\$ 85,855,515</u>	<u>\$ 82,077,323</u>	<u>\$ 79,074,828</u>	<u>\$ 74,523,013</u>

Reinsurance contracts do not relieve the Association of its primary obligation to policyholders and failure of the reinsurers to discharge their obligations could result in losses to the Association. The Association, with the assistance of their reinsurance intermediary, regularly evaluates the financial condition of its reinsurers and monitors concentrations of credit risk related to its reinsurance activities.

No credit losses resulted from ceded reinsurance activities during the years ended December 31, 2018 and 2017.

Unsecured reinsurance recoverable on paid and unpaid losses and loss adjustment expenses for individual reinsurers whose balances exceed 3% of the Association's surplus as of December 31, 2018, were as follows:

	Amount
Allianz Risk Transfer	\$ 1,576,000
Argo RE	208,000
Chubb Tempest Reinsurance Ltd.	209,000

The Association has not received a ceding commission as part of its reinsurance arrangements. Therefore, upon cancellation, no return commission will be due.

For the year ended December 31, 2018, management recorded a statutory provision for reinsurance of \$2,726,000 related to amounts ceded to unauthorized reinsurers.

North Carolina Joint Underwriting Association

Notes to Statutory Financial Statements

Note 12. Subsequent Events

Events or transactions that occur after the statements of admitted assets, liabilities and members' surplus date, but before statutory financial statements are complete and available to be issued, are reviewed by the Association to determine if they are to be recognized.

All of the effects of subsequent events that provide additional evidence about conditions that existed at the statements of admitted assets, liabilities and members' surplus date, including the estimates inherent in the process of preparing the statutory financial statements, are recognized in the statutory financial statements. The Association does not recognize subsequent events that provide evidence about conditions that did not exist at the statements of admitted assets, liabilities and members' surplus date but arose after, but before the statutory financial statements are available to be issued. In some cases, nonrecognized subsequent events are disclosed to keep the statutory financial statements from being misleading.

The Association has evaluated subsequent events through April 23, 2019, which is the date that the statutory financial statements were available to be issued.

Note 13. Reconciliation to Annual Statement

The accompanying 2018 financial statements include the following adjustments and reclassifications:

- The balance of amounts due from reinsurers and losses incurred, net were adjusted by \$901,255 to reflect balances of paid claims eligible for reinsurance reimbursement as of year end.
- The balance of other amounts receivable under reinsurance contracts was recorded and the balance of premiums earned, net was adjusted in the amount of \$528,085 to record balances due from the reinsurer related to contract provisions.
- Certain amounts in the 2018 statement of cash flows have been reclassified and therefore differ from amounts reported in the 2018 Annual Statement.

SUPPLEMENTAL INVESTMENT RISKS INTERROGATORIES

For the year ended December 31, 2018

(To be filed by April 1)

Of North Carolina Joint Underwriting Association

Address (City, State, Zip Code): Raleigh NC 27607

NAIC Group Code.....0

NAIC Company Code.....0

Employer's ID Number.....56-1222676

The Investment Risks Interrogatories are to be filed by April 1. They are also to be included with the Audited Statutory Financial Statements.

Answer the following interrogatories by reporting the applicable U.S. dollar amounts and percentages of the reporting entity's total admitted assets held in that category of investments.

1. Reporting entity's total admitted assets as reported on Page 2 of this annual statement. \$.....82,450,648

2. Ten largest exposures to a single issuer/borrower/investment.

1	2	3	4	Percentage of Total Admitted Assets
<u>Issuer</u>	<u>Description of Exposure</u>	<u>Amount</u>		
2.01 Morgan Stanley.....	Bonds, MBS	\$.....2,452,652		3.0 %
2.02 Federal National Mortgage Association, Inc.....	Bonds, MBS	\$.....2,403,520		2.9 %
2.03 Pricoa Global Funding I...	Bonds	\$.....1,508,918		1.8 %
2.04 Hertz Vehicle Financing II LP.....	ABS	\$.....1,115,637		1.4 %
2.05 Ally Master Owner Trust.....	ABS	\$.....1,097,636		1.3 %
2.06 Aviation Capital Group LLC.....	Bonds	\$.....1,077,114		1.3 %
2.07 The Bank of New York Mellon Corporation.....	Bonds	\$.....1,045,066		1.3 %
2.08 JPMorgan Chase & Co.....	Bonds	\$.....1,009,662		1.2 %
2.09 Avis Budget Rental Car Funding (AESOP) LLC.....	ABS	\$.....1,000,956		1.2 %
2.10 Branch Banking and Trust Company.....	Bonds	\$.....999,970		1.2 %

3. Amounts and percentages of the reporting entity's total admitted assets held in bonds and preferred stocks by NAIC designation.

<u>Bonds</u>	1	2
3.01 NAIC 1.....	\$.....34,417,940	41.7 %

North Carolina Joint Underwriting Association

Supplemental Schedule of Reinsurance Interrogatories
December 31, 2018

7.1. Has the reporting entity reinsured any risk with any other entity under a quota share reinsurance contract that includes a provision that would limit the reinsurer's losses below the stated quota share percentage (e.g., a deductible, a loss ratio corridor, a loss cap, an aggregate limit or any similar provisions)?

Yes [] No [X]

8.1. Has this reporting entity reinsured any risk with any other entity and agreed to release such entity from liability, in whole or in part, from any loss that may occur on the risk, or portion thereof, reinsured?

Yes [] No [X]

9.1 Has the reporting entity ceded any risk under any reinsurance contract (or under multiple contracts with the same reinsurer or its affiliates) for which during the period covered by the statement: (i) it recorded a positive or negative underwriting result greater than 5% of prior year-end surplus as regards policyholders or it reported calendar year written premium ceded or year-end loss and loss expense reserves ceded greater than 5% of prior year-end surplus as regards policyholders; (ii) it accounted for that contract as reinsurance and not as a deposit; and (iii) the contract(s) contain one or more of the following features or other features that would have similar results:

- a. A contract term longer than two years and the contract is noncancellable by the reporting entity during the contract term;
- b. A limited or conditional cancellation provision under which cancellation triggers an obligation by the reporting entity, or an affiliate of the reporting entity, to enter into a new reinsurance contract with the reinsurer, or an affiliate of the reinsurer;
- c. Aggregate stop loss reinsurance coverage;
- d. A unilateral right by either party (or both parties) to commute the reinsurance contract, whether conditional or not, except for such provisions which are only triggered by a decline in the credit status of the other party;
- e. A provision permitting reporting of losses, or payment of losses, less frequently than on a quarterly basis (unless there is no activity during the period); or
- f. Payment schedule, accumulating retentions from multiple years or any features inherently designed to delay timing of the reimbursement to the ceding entity?

Yes [] No [X]

North Carolina Joint Underwriting Association

Supplemental Schedule of Reinsurance Interrogatories (Continued)
December 31, 2018

9.2. Has the reporting entity during the period covered by the statement ceded any risk under any reinsurance contract (or under multiple contracts with the same reinsurer or its affiliates), for which, during the period covered by the statement, it recorded a positive or negative underwriting result greater than 5% of prior year-end surplus as regards policyholders or it reported calendar year written premium ceded or year-end loss and loss expense reserves ceded greater than 5% of prior year-end surplus as regards policyholders; excluding cessions to approved pooling arrangements or to captive insurance companies that are directly or indirectly controlling, controlled by, or under common control with: (i) one or more unaffiliated policyholders of the reporting entity or (ii) an association of which one or more unaffiliated policyholders of the reporting entity is a member where:

- a. The written premium ceded to the reinsurer by the reporting entity or its affiliates represents fifty percent (50%) or more of the entire direct and assumed premium written by the reinsurer based on its most recently available financial statement; or
- b. Twenty-five percent (25%) or more of the written premium ceded to the reinsurer has been retroceded back to the reporting entity or its affiliates in a separate reinsurance contract.

Yes [] No [X]

9.4. Except for transactions meeting the requirements of paragraph 31 of SSAP No. 62R, *Property and Casualty Reinsurance*, has the reporting entity ceded any risk under any reinsurance contract (or multiple contracts with the same reinsurer or its affiliates) during the period covered by the financial statement, and either:

- a. Accounted for that contract as reinsurance (either prospective or retroactive) under statutory accounting principles (SAP) and as a deposit under generally accepted accounting principles (GAAP); or
- b. Accounted for that contract as reinsurance under GAAP and as a deposit under SAP?

Yes [] No [X]

See accompanying independent auditor's report.
